Solid Waste Permit No. 92-10  
Groundwater Monitoring Data

Dear Mr. Lutfy:

Analysis results for Total Organic Halides were not included in the report of the first 1993 semi-annual sampling of the groundwater monitoring wells for wells #1, #3, #4, and #5, due to errors made by the contract laboratory. Carolina Power & Light Company was notified by the laboratory on June 8, 1993 that the samples for Total Organic Halide analysis exceeded the sample holding time. Resampling of the wells was performed on June 11, 1993 and the subsequent analysis results are enclosed for your review.

The second semi-annual sampling of the groundwater monitoring wells will be in October 1993. If you have any questions or comments, please contact Mr. J. M. McDowell at (919)546-6920.

Yours very truly,
